

LUMIA

• FAMILY CONVERSATION CARDS •

Big questions. Better conversations.
No perfect answers required.

12 ready-to-use prompts for exploring
Chapter One, **Focus Power™** and the world inside us.

• AGES 8-15 •

You don't need to have the answers. ✨

Lumia isn't here to replace conversations with your child. She's here to help start them.

These prompts turn a few minutes with Lumia into a chance to wonder, investigate, disagree, laugh, notice patterns—and discover what your child *actually* thinks.

HOW IT WORKS

01 PICK

Choose a prompt that sounds interesting.

02 ASK

Open Lumia and type the prompt exactly as written—or make it your own.

03 FOLLOW

Let Lumia ask follow-up questions. You don't have to control where the conversation goes.

04 GET CURIOUS

Try asking your child:
"What makes you think that?"
instead of immediately explaining what you think.

THE ONLY RULE

There doesn't have to be a right answer.

The goal isn't to get your child to agree with Lumia—or with you.

The goal is to help them practice noticing what they think, exploring why they think it, and becoming willing to look again.

AFTER THE ADVENTURE ✧

Keep investigating.

Use these prompts to explore Chapter One together.
Ask questions. Share theories. Change your mind.
Follow the clues wherever they lead.

MY BRAIN WON'T DROP IT

Sometimes our attention gets stuck on something annoying, embarrassing, exciting or worrying. Help us explore why that can happen and what choices we might have about where our attention goes next.

resource.*

*You get to
choose where
you invest it.*

Someone randomly calls:

Just notice.

The adventure doesn't have to stay inside the story.

JUST WONDER WITH US

Use this anytime you don't know what to talk about.

COPY + ASK LUMIA

Lumia, we don't want a lesson. We want to wonder about something together. Give us one interesting question. Ask us one question at a time, listen to our answers, challenge our thinking when it makes sense, and don't rush to give us the answer.

Knowing doesn't always start with an answer.
Sometimes it starts with a better question.
